

## Summer City Camps: your holidays in Vienna full of variety and fun!

The summer holidays are always a special time of year for all children and adolescents. This year, after many months of pandemic, these weeks are especially important for them to share positive experiences with other children and teenagers, replenish their energy and discover new things together!

The Summer City Camps by the City of Vienna provide children and adolescents in the whole of Vienna with the opportunity to participate in a wide range of offers involving sports, games and fun. As Vienna's Deputy Mayor and Councillor for Education, this is a matter very dear to my heart when it comes to the physical and mental health of children and young people.

Once again, this year, the Summer City Camps will be carried out on site by professional partner organisations in Vienna. Be it cycling courses, swimming lessons, cultural experiences or learning support – there's something to suit all needs. With a balanced mix of games, fun and targeted learning promotion, we offer a top-notch, affordable holiday programme.

Together we make sure that children and adolescents are able to enjoy their well-deserved holidays while also getting the best chance for a successful start to the new school year!

I wish all children and adolescents a wonderful summer!

Christoph Wiederkehr  
Vienna Deputy Mayor and Councillor for Education
